PROFILE

Final-year student (5th year) in the Computer Science and Networks engineering program at EMSI, specializing in Artificial Intelligence and Data Science. Skilled in Python, web/mobile application development and data manipulation, with academic and professional experience in designing web, mobile and software projects, as well as in generative AI and RAG. **Seeking an End-of-Studies Project (PFE) internship of a minimum duration of 6 months, starting February/March 2027, with the possibility of pre-hiring,** in order to apply my technical skills, deepen my expertise in AI/Data and actively contribute to innovative projects within a company over the long term.

EDUCATION

Ecole Marocaine des Sciences de l'Ingénieur (EMSI) 09/2024 – PRESENT | CASABLANCA
- *Engineering Program in Computer Science and Networks (In progress)*

Ecole Marocaine des Sciences de l'Ingénieur (EMSI) 09/2022 – 06/2024 | Casablanca
- *Preparatory Year in Engineering*

Baccalaureate in Physical Sciences BIOF 2020 – 2021

PROFESSIONAL EXPERIENCE

Artificial Intelligence Intern – CSELEC 03/07/2026 – 30/08/2026 | CASABLANCA
- Analysis and use of technical documents intended for electrical technicians
- Design and development of an intelligent assistant based on generative AI
- Implementation of a RAG approach for search and generation of contextualized responses
- Development of a web interface for interacting with the assistant and viewing the history
- Use of Python, FastAPI, React, ChromaDB, LangChain, Ollama and SQLite
- **End-of-internship project:** design and development of an intelligent assistant based on generative AI to assist electrical technicians

IT Services Intern - Otis Elevator Maroc 01/07/2025 – 01/08/2025 | CASABLANCA
- Configuration and deployment of HP PCs and iPhones via AirWatch (MDM) to the Otis domain
- Technical support and resolution of incidents related to computer workstations
- Management of administrative and technical tasks in Excel
- User assistance and maintenance of the IT equipment
- **End-of-internship project**: automatic language detection and real-time translation in Microsoft Teams

ACADEMIC PROJECTS

AI Logistics Optimization Platform (PFA) , *React,TypeScript ,FastAPI ,Python , MySQL* 05/2026
- Web application based on a modern full-stack architecture
- Optimization of delivery routes (VRP: OR-Tools, Genetic Algorithms, Reinforcement Learning)
- Machine Learning model for delay prediction (traffic, weather, peak hour)
- Hybrid benchmark of algorithms (distance, time, cost)
- Interactive dashboard (Admin / Operator / Client) with visualization and simulation
- Performance improvement

Medical Multi-Agent System with LangGraph *LangGraph , LangChain ,FastAPI ,MCP ,React* 05/2026
- Multi-agent system for clinical workflow (patient data collection, synthesis, physician validation)
- Generation of structured medical reports with LLM
- FastAPI API + MCP integration + frontend interface

HR - Human Resources Management Application, *Java* | *JavaFX* | *MySQL* 01/2026
- Desktop application with 3-tier MVC architecture
- Management of employees and leave (CRUD, validation workflow)
- Dashboards and CSV import/export

AppliRecette - Recipe Mobile Application, ReactNative, Expo,Node.js, Express, MongoDB, Firebase 01/2026
- Mobile application for recipe sharing (CRUD), comments, favorites and moderation
- Authentication and USER / ADMIN roles

IT Stock Management - Web Application, *ASP.NET Core 9.0, Entity Framework Core, SQL Server* 01/2026
- Inventory management and stock movements, alerts and anomaly detection
- Dashboard + real-time notifications

Excursion Management Application (Flutter)**: Google Maps, push notifications (PFA)** 05/2025
- Management of events and registrations
- Google Maps + push notifications

Library Management System (Django) 05/2025

Phone Sales Website (HTML, CSS, JavaScript) 01/2025

TECHNICAL SKILLS

Languages: Python,Java, JavaScript, C#, Dart | **Programming:** SQL, Object-Oriented Programming (OOP)
Artificial Intelligence & Data: Data analysis and manipulation (Python), basic knowledge of Machine Learning, data processing, visualization (basics)
Web: HTML,CSS, JavaScript, ASP.NETDjango, REST API (Node.js,Express.js) | **Mobile:** Flutter, React Native (Expo)
Frameworks: Django, JavaFX, Express.js, Entity FrameworkCore
Databases: MySQL,SQL Server, MongoDB, Firebase,xampp | **Architecture:** MVC, MERN
Tools: Git,GitHub, Redux, Firebase, AirWatch, Microsoft Excel

SOFT SKILLS

Project management | Teamwork | Effective communication | Problem solving

CERTIFICATES

React Native - Meta (Coursera) | React Basics - Meta (Coursera) | Using Python to Access Web Data - University of Michigan | Software Engineering: Software Design & Project Management HKUST | Interactivity with JavaScript - University of Michigan | Successful Negotiation - University of Michigan | The Unix Workbench - Johns Hopkins University

LANGUAGES

French | English | Arabic
